KWIK KRAFTS

Kwik Krafts is a website advertising my craft business. This is a gallery of some of my crafts. You can browse through them and if you see something you like you can contact me using the details on the "contact" page.

Slide 1

cl1

I would like the home page to look like this. Please choose appropriate fonts that are similar to the ones used here. I can attached all the images used. Please also add an appropriate footer at the bottom of each page containing copy right information.

Can you please add a parallax effect to the image so that it stays in place when you scroll down the page.

In the nav bar, can the name of the page that you are currently on be black and can the other page names be grey. The colours don't have to be exactly the same as they are on here.

Hi, my name is Kelly. I have been making arts and crafts for over 25 years, with experience making props for professional theatre sets. My background in crafts, painting, and clothes design allow me to finish just about any job to a high level of quality. I am fueled by my passion for creating and designing. I like to both build on my academic foundations in arts and crafts and stay in tune with the latest fashion and designs through the media.

Slide 2

For the about me page use the same template, navigation bar and footer as on the home page. Change the nav bar so that the name of the About page is black and the others are grey. Add the same parallax effect to the image as before and use the same fonts as you did on the first page.

{Insert place holder images here}

Slide 3

cl3 Use the same nav bar, parallax effect, fonts, and footer as before.

I haven't taken any pictures of my products yet so please find some place holder images online and arrange them in an appealing fashion. 6 - 8 images should be fine.

I haven't set up my business email yet so just add a sample one for now. Keep everything else on the page consistant and the same as it has been on the others.
